Final Conference
of BEWEXMIN project
No. RFCR-CT-2015-00003

**Bucket wheel excavators
operating under difficult mining
conditions including
unmineable inclusions and
geological structures with
excessive mining resistance**

12th-13th of June 2018

Wrocław, Poland

MAIN INFORMATION ABOUT CONFERENCE

The BEWEXMIN consortium hosts Final Conference of project which will be held in Novotel Wrocław Centrum on the 12th-13th of June 2018.

The main goal of the conference is the exchange of scientific ideas regarding solutions leading to the greatest possible reduction in failure rates of bucket wheel excavators during operation in soils rocks with excessive digging resistance and nonmineable inclusions.

During the conference, the results of the project BEWEXMIN co-financed by Research Fund for Coal and Steel and Polish Ministry of Science and Higher Education will be presented.

The main conference topics are:

- control, diagnostics and protection systems in basic machinery
- computer aided methods in basic machines designing and modernization
- possibilities of increasing work safety and efficiency

We invite you to participate and share your experience in the above-mentioned topics.

PAPERS/PRESENTATIONS

Papers will be published in "Górnictwo Odkrywkowe" ISSN 0043-2075 (7 points according to the list of scientific journals of the Ministry of Science and Higher Education).

The length of the text along with graphical attachments, tables and bibliography shall not exceed 15 pages with 12 pt size fonts and interline distance of 13 pt size.
